🚨 Fraud Signals

Rule-based detection · AI-assisted investigation

Rule-based anomaly detection on enrolled beneficiaries. Every flag shows the exact rule code and human-readable detail — not a black box. AI briefs assist investigation only.

▼ 📋 Detection rules (4 rules active)

`MULTI_SCHEME_OVERLAP` HIGH
Multi-Scheme Overlap
Same person enrolled in 2+ cash-transfer schemes (MONTHLY / ANNUAL) at once — possible duplicate benefits.

`INCOME_CLIFF` MEDIUM
Income Cliff
Household income is 90–100% of the scheme income ceiling — possible deliberate under-reporting near the limit.

`AGE_ANOMALY` LOW
Age Anomaly
A family member's date of birth implies age over 100 — likely a data-entry error.

`FAMILY_INCOME_MISMATCH` HIGH
Family Income Mismatch
Household total income is under ₹50,000 but at least one member's declared income exceeds ₹1,80,000.
